MONITORING:

Drums, bass and guitar use stage monitors. Keys uses IEMs. If monitors are fed by M32/X32 or Allen & Heath digital consoles, keys will (if permissible) mix his own monitor mix via a remote iOS mixing app. For any other console, keys will need a mix-minus feed from FOH/Monitor world. His vocal and keys will be split out via a band-provided Whirlwind mic split and 4-channel DI and will be mixed with the mix-minus feed in a band-provided line mixer. Please see diagram.
